

YOUR COMPANY

LETTERHEAD

[Date goes here]

Dear Razorpay team,

<Business Name> is in the business of mutual fund distribution/Advisory and MID (<Your MIDs here>) are issued for that business. **fintechprimitives.com** is a distribution platform which assists us by:

- 1) Ensuring our integration with RazorPay is maintained and performant
- 2) Helping us to reconcile transitions and maintain the appropriate status of transactions (including if they've been funded through your rails)
- 3) Providing general technical support on our backend systems

We request you to add this domain to the whitelisted domains. We are requesting you to add an additional domain (fintechprimitives.com) to the whitelisted domains and not replacing the existing website URL (<URL that you have given while registering with Razorpay>) associated with the MID.

The MIDs are issued against a business (which is mutual fund distribution/advisory). That is not changing here. We are just adding another whitelisted domain.

Please process this request at the earliest.

Please contact -<Contact person phone number>, for any clarifications.

Best
